Serial No. 10/567,687 (Junichi HIRAI et al.), filed February 9, 2006 RE:

MESSAGE: Examiner Jakovac: Enclosed is a brief Agenda for the purposes of scheduling a telephone interview. I would like to schedule the telephone interview by the end of March, if possible.

<u>Agenda</u>:

- Discuss the present invention as recited in independent claim 17 (as an exemplary independent 1) claim).
- Discuss, in particular, the application of the Graham reference. 2)

CONFIDENTIALITY NOTICE

This message is intended for the individual or entity to which it is addressed and may contain information that is privileged, confidential and exempt from disclosure under applicable law. 3) Discuss the distinguishable features between the present invention (as recited in independent claim 17) and the Graham reference.

For example, claim 17 recites the limitation "wherein said interruption location capturing unit captures the interruption reason for which the content receiving device became unable to receive content, or the interruption reason for which the viewing and/or listening of content using the content receiving device has been interrupted; and said transmission controlling unit determines the predetermined distance to retrace from the interruption location according to said interruption reason, and controls said transmission unit to transmit content starting from the predetermined distance determined to the content receiving device."

This limitation is not believed to be disclosed or suggested by the Graham reference. It would be helpful for the Applicants to discuss which part(s) of the Graham reference disclose this limitation.

Discuss any other issues remaining in the present application.

As indicated above, the Applicants would like to schedule the telephone interview by the end of March. I can be reached at 202-721-8238.

Sincerely,

Mark D. Pratt
